EXPERIENCE

TELEPHONO (Project Link, GitHub Link)   **Oct 2020 - Present**
Sole Developer & Designer

Full-stack eCommerce site designed to manage and sell mobile phone products.
- Implemented schema and references to store and categorize products for quick product discovery using MongoDB.
- Tested and developed a remote server to perform CRUD operations, JWT authentication, and a BrainTree payment system using Node.js.
- Implemented an automated mailing system to confirm product orders with SendGrid mailing service.
- Designed and developed an intuitive client-facing application for the searching, purchasing, and management of products with React and SCSS.
- **Tech Stack**: HTML, JavaScript, React, SCSS, Node.js, Express.js, MongoDB, JWT, Bcrypt.js, BrainTree, SendGrid, Jest.

JIMMY KARAMANIS PHOTOGRAPHY (Project Link, GitHub Link)   **Dec 2020 - Jan 2021**
Sole Developer & Designer

Photography portfolio website and CMS for Jimmy Karamanis.
- Implemented a headless CMS and CI/CD pipeline for high-resolution photographic assets to be managed by the client independently using Sanity.io and Netlify.
- Designed and developed performant and responsive photography site using Gatsby.js and GraphQL.
- Ensured client trust and satisfaction with scheduled deliverables, comprehensive onboarding, and accurate fulfillment of desired features.
- **Tech Stack**: HTML, SCSS, BootStrap, JavaScript, Gatsby.js, GraphQL, Sanity.io, Netlify.

CHATTERBOX (Project Link, GitHub Link)   **Oct 2020**
Sole Developer & Designer

Live service chat application, latest of three versions.
- Implemented a live bi-directional communication of data between a Vanilla JavaScript client and a Node.js server.
- Broadened features with message persistence and chatroom creation by integrating Google Firebase database.
- Improved scalability and performance substantially from previous versions through trimming of dependencies, critique of previous methodology, and reorganization of code base.
- **Tech Stack:** HTML, CSS, JavaScript, Socket.io, Google Firebase.

RESTAURANT SERVICE AND MANAGEMENT   **Aug 2013 - Present**
Line Cook, Food Expeditor, Busser   *Montreal, QC*

- Trained, coached, and directed teams of up to 4 junior cooks on a daily basis (*Hurley's Irish Pub*).
- Organized service for evenings of over 500 individual plates and over 200 customers (*Hurley's Irish Pub*).
- Facilitated the opening, menu planning, and budgeting of *Restaurant TOPO.*
